- Founding member of DevX AI; led evaluations and company-wide rollouts that achieved 100% adoption across engineering; featured by OpenAI
- Set Duolingo's MCP platform strategy and standards; led 13+ engineers to deliver 30+ servers generating 30K+ weekly tool calls and saving an estimated 500 engineering hours per week
- Led development of open-source DuolingoAI, an enterprise agent spanning 30+ MCP servers; grew it to 400+ weekly active users with an 80% positive-feedback rate
- Architected production guardrails for internal agents: role-based tool access, approval-gated writes, privacy boundaries, and regression evaluations
