Experience

Duolingo | Staff Software Engineer
Sep 2022 – Present | Seattle, WA

- Founding member of DevX AI; drove 100% AI adoption across engineering; cut costs ~3x via open-source LLMs.
- Set MCP strategy; built a gateway; led 13+ engineers (4 teams); 30+ servers saved 500+ engineering hours/week.
- Built DuolingoAI, an open-source Slack agent: 400+ weekly active users, 90%+ positive feedback.
- Led Android/iOS CI upgrades: 68% shorter build times (50 to 16 min) via caching and parallelization.

Google | Senior Software Engineer
Mar 2018 – Sep 2022 | Kirkland, WA

- Led 3 engineers on BigQuery Omni's cross-cloud platform; delivered E2E validation a year before launch.
- Built a pre-commit A/B framework; kept noise below 5% to catch latency regressions before merge.
- Designed a shared presubmit reservation system to parallelize tests; adopted by five other Google teams.

Qumulo | Technical Member of Staff
Sep 2016 – Mar 2018 | Seattle, WA

- Co-designed and implemented tiered file-read caching (US Patent 10,534,758).
- Added three-drive failure tolerance to the distributed file system's protection layer.
- Extended SMB, NFS, and LDAP support in QumuloFS, a NAS (Network Attached Storage) file system.
